

S/Y CHRISCO

Dear Permanon Team,

I first got introduced to Permanon Supershine and all the other Permanon products about two years ago 2008. During this time Chrisco was at the end of construction at CNB in Bordeaux. Rolland Schmitt was showing me some samples and I was convinced by Permanon right away.

Now, after one and a half years and about 18000 nm of sailing, I really can say, Permanon is a wonderful, outstanding product! We are using Supershine and Boat Shampoo 2 in 1 for our deckhouse - made out of 81 pieces of glass! - ,on the hull and inside the boat. It is so easy to apply and saves so much time, but the result is super. CHRISCO is super shiny, so the crew and the owner enjoying it.

On a 100 sailing yacht with just a small crew, you have to be efficient, when it comes to cleaning, and Permanon is one of the best „crew members“!

Besides Supershine and Boat Shampoo, we are using Sanides and Hekta. For our white leather sofas and interior we are using also the PS Paste, which works great on the stains.

In the beginning you think, well it is quite expensive, and you think you need a bigger quantity, but in the end it is so economical, that I still have some Supershine left from my first order.

Thank you for inventing such a good product, that makes life so much easier on board.

Uwe Roch December
